

Fredrik Wolfhagen Sand, PhD

Senior Scientist
Novo Nordisk A/S

Biography

Fredrik Wolfhagen Sand is a Senior Scientist in pharmacology at Novo Nordisk A/S. Fredrik started his scientific career at Gothenburg University where he studied Retinopathy and Angiogenesis.

Fredrik then moved to Lund University focusing on developmental- and stem cell biology of the pancreas.

2012 Fredrik joined Novo Nordisk A/S and has since then worked with a number of pharmacological aspects of diabetes using mainly mouse and rat models. Fredrik is currently Biology Coordinator in one of Novo Nordisk A/S initiatives to cure diabetes.
