

Saskia van Hemert

Senior Scientist
Winlove Probiotics, The Netherlands

Biography

Dr. Saskia van Hemert has a PhD from the University of Wageningen and is a research expert in the field of host-microbe interactions.

Since 2009 she works as a senior scientist at Winlove Probiotics where she is responsible for the scientific content of different research projects focusing on probiotics and the role of gut barrier function in health and disease.

She has several publications and research projects about probiotics and different areas related to the gut-brain axis, like mood, depression, ADHD/autism and migraine.
