

Dr. Torsten Reinheimer

Principal Scientist, Ferring Pharmaceuticals A/S, Denmark
Honorary Professor, Warwick medical School, UK

Biography

Torsten Reinheimer has been employed in the pharmaceutical industry in Germany and Denmark for 18 years, with a focus on non-clinical development of peptides and biologics including pharmacology, SP, PK and toxicology. He has been engaged in several therapeutic areas including gastroenterology, reproductive science, cardiovascular and endocrinology. Dr Reinheimer has contributed to international project teams of many clinical candidates supporting all preclinical and clinical phases and regulatory submission.

He is part of Ferring's microbiome initiative in collaboration with the Karolinska Institute.

Dr Reinheimer is qualified as a pharmacist in Germany, he has a PhD in pharmacology and is a certified pharmacologist of the DGPT. Since 2007, he holds an Honorary Professorship in reproductive health. He graduated as Master of Applied Toxicology in Surrey and is registered as British and European toxicologist. Dr Reinheimer has published 27 peer reviewed papers in scientific journals and he has more than 20 international management trainings.
