

**Cecilia Emanuelsson**

Principal consultant  
QAdvis

**Biography**

Cecilia has extensive experience from working many years with the clinical and regulatory areas in medical device industry. She has also worked over 15 years with academic research, in particular surgical sciences. With her specific expertise in the regulatory framework, clinical evaluations, patient safety issues, clinical risk/benefit analyses, usability aspects, scientific reviews etc, she supports the industry to produce clear and concise clinical/regulatory documentation.

Cecilia holds a PhD and an MScPharm from Uppsala University, where she is also appointed associated professor.
