# OVERARCHING GOAL

The vision for **Greater Copenhagen** is to be the **leading metropolis in Northern Europe** in terms of attracting & retaining international investments, companies and talent

Microbiome Signature Project –  
Greater Copenhagen as a global centre for microbiome research

- Interreg-financed project over 3 years (2019-2022)
- Focus on three key challenges to be addressed for the continued growth of the industry:
  - ✓ Attracting foreign talent and researchers
  - ✓ Attracting foreign research facilities and activities
  - ✓ Promoting of Greater Copenhagen as the central life science region in Europe
