

Project Manager

This is an opportunity to join an ambitious network organisation within the Swedish-Danish Life Science cluster Medicon Valley.

Medicon Valley Alliance is looking to recruit a talented and organised Project Manager to help us strengthen the networks between academia, the health care system and the industry.

As a non-profit member organization, Medicon Valley Alliance carry out initiatives on behalf of the life science community in the capital region of Denmark and the southern part of Sweden, with the goal of creating new research and business opportunities within the region.

Medicon Valley Alliance provides a platform for our members to meet and network across sectors and national borders. Our bi-national networks, initiated and driven by our members and the secretariat collectively, are key in stimulating knowledge sharing and collaboration within the Medicon Valley life science cluster. Currently, Medicon Valley Alliance is running five successful networks. The Medicon Valley Alliance networks host approx. 10 events a year. The events are in-person networking events as well as on-line webinars.

We are looking for a new colleague who can take responsibility for the networking platform, and further develop it in close collaboration with our members. The successful candidate will be part of a small team of colleagues from both Denmark and Sweden and will contribute to stronger networks and increased collaborations between Medicon Valley Alliance's members. The role would suit a Project Manager with a life science background and an interest for cross-border cluster development.

Key responsibilities for this role

The main responsibilities of this role are:

- Develop, plan and execute networking activities
- Facilitate cross-border working groups within scientific strongholds
- Support our partners and members in finding collaboration partners
- Engage in project development and fundraising efforts
- Participate and represent Medicon Valley Alliance in various working groups
- Map and analyze ongoing collaborations between Danish and Swedish Life science stakeholders in Medicon Valley
- Ensure a close dialogue with existing and potential members

Required qualifications

- Relevant academic background
- Life science experience
- Understanding of delivering and development of different kinds of events
- Ability to simultaneously administer various projects
- Capable of meeting deadlines
- Demonstrates excellent project management skills
- Good team player with a positive and flexible approach to work
- Excellent communication skills, both oral and written.
- Ability to work in a fast-paced environment
- Be self-motivated, originate ideas, positively influence outcome, take action and get things done.

Medicon Valley Alliance is a Danish-Swedish life science cluster organization representing the entire life science community in the Medicon Valley region consisting of the Danish capital area of Copenhagen and the south Swedish region of Skåne. On behalf of its more than 230 members, including the leading universities, hospitals and private pharmaceutical, medtech and biotech companies, Medicon Valley Alliance, carry out and promotes collaboration initiatives and network events both in order to create new research and business opportunities and strengthen the development of the region. The European Secretariat for Cluster Analysis (ESCA) has awarded Medicon Valley Alliance with the Cluster Management Excellence GOLD Label - Proven for Cluster Excellence.
