

**Anke Domdey, PhD, Partner, invest4biotech ApS**

Anke has extensive international experience in R&D and marketing from the biotechnological and pharmaceutical industries (Bayer Healthcare, Boehringer Ingelheim, BioXell, LEO Pharma) and advisory roles. Anke has filled line managerial positions in non-clinical development and has also been responsible for the management of projects across all development phases incl. co-operations with external partners. In 2008, she founded Dawa Consulting ApS and in 2013, Anke became co-founder of invest4biotech ApS. She has provided clients with valuable, authoritative advice on non-clinical development of medicines and vaccines from candidate selection to first-in-human as well as non-clinical late-stage development. She also offers services related to non-clinical development like due diligence, outsourcing and preparation of preclinical sections of regulatory documents like IMPD, IB, CTD.
