

Brett Villagrand, Senior Director, Product Solutions, Oracle Health Sciences

Brett has over 20 years of global experience in the Life Sciences Industry. Brett was Global Product Manager at Novartis for 11 years, where he held placements and various roles in Australia, Switzerland and the USA. He notably led the Sandostatin brand operations, and was the commercial representative for various product life cycle teams. He then went onto Genentech where over a 6 year period he served as the US Brand Owner for Herceptin and Pertuzumab, overseeing their product development and commercialization strategies. More recently Brett served as the commercial lead for Ibrutinib at Pharmacyclics and was the VP of Alliance Management at Elan Corporation, where he managed their Biogen IDEC strategic drug development alliance. Brett has also served as a consultant for life sciences start-up organizations and was a co-founder of a company in the area of demand generation within B2B segments.
