

Human Clinical Trial Insurance Scheme

- **Lower premiums**
- **Broad coverage**
- **Easy access and time-saving setup**

Through QBE Insurance Group, the Medicon Valley Alliance Human Clinical Trials Insurance Scheme (MVA-HCTI) can provide you with easily accessible insurance coverage for your human clinical trials.

MVA-HCTI will cater for almost all types of clinical trials, performed in almost any country around the world and with attractive limits, premiums and conditions. It serves two main purposes; to provide a competitive insurance solution for you as the insured and to save you time and money.

The Advantages

Whether single or multi-center, local or geographically spread, large or smaller trial populations, the MVA-HCTI Scheme can be beneficial to you.

The advantages are:

- **Lower premiums** - up to 40% saving on standard underwriting premiums
- **Broad coverage** - one insurance program that covers all of your sites
- **Easy access and time-saving setup** - web-based request for participation and quote within 5 working days

Specifications

The scheme offers participating Sponsors:

- Broad coverage based on an international liability HCT-wording with several extensions
- Country-specific policies with individual, trial-specific limits
- Group program (on top) with shared limits of up to EUR 30.000.000 per claim and EUR 60.000.000 annual aggregate
- Premium reduction of up to 40% (on standard underwriting premiums)
- Easy access and time-saving setup
- Minimal impact on your current set-up as you may still use your current insurance broker

On the intranet, you will find:

- All questionnaires and forms necessary for the Insurers to provide a quote or amend a certificate or policy
- Detailed description of the insurance program, its administration and the actual policy documents

Insurance quotations will be provided, typically within 5 working days from receipt of all necessary information. If Sponsor chooses to participate, Certificate(s) of Insurance will be issued immediately after formal acceptance.
