

David Passov

Senior Vice President, Head of Project Management – Europe, Asia-Pacific and Africa
PRA Health Sciences

David Passov was born in Estonia when it was part of the Soviet Union. He attended Tartu University Medical School prior to moving to the US in 1993. He received a degree in biology from Boston College and following a short basic science research tenure at Massachusetts General Hospital's neuroscience department entered the biopharmaceutical industry in 1996.

Since that time, Mr. Passov has held positions in clinical operations, project management, market research, business development, commercial operations, and general management at various small and large US-based CROs. He also received an MBA from the Executive MBA Program at Northeastern University in Boston, MA in 2002. David joined PRA in March 2013 when PRA acquired ClinStar, where David held the position of President and Chief Executive Officer. Currently, he holds a position of a Senior Vice President and is responsible for Project Management across Europe, Asia-Pacific and Africa. He also oversees several PRA's clients in a General Partner role.

About PRA Health Sciences

PRA Health Sciences (PRA) is one of the world's leading global contract research organizations, or CROs, providing outsourced clinical development services to the biotechnology and pharmaceutical industries. Side-by-side with clients, PRA strives to move drug discovery forward to help develop life-saving and life-improving drugs.

PRA has therapeutic expertise in areas that are among the largest in pharmaceutical development, including oncology/hematology, CNS (neurology/psychiatry), cardio-metabolic diseases, inflammation/immunology, infectious diseases, rare diseases, respiratory, and biosimilars.

Since 2000, PRA has performed more than 3,100 clinical trials worldwide and has worked on more than 100 marketed drugs across several therapeutic areas. With more than 11,000 employees worldwide, PRA's global clinical development platform spans 70+ offices across North America, Latin America, Europe, South Africa, the Middle East, Asia, and Australia.
