# THE MVA NETWORKS

MVA R&D Network will focus on best practice and current challenges for industry-academia collaboration and the commercialization of R&D in the Medicon Valley region

Medicon Valley Alliance Oncology Network is a network initiated by Danish and Swedish business and academia within the field of oncology

Medicon Valley Medtech Network gather the region's medtech industry together in order to create new partnerships and business opportunities

Medicon Valley Alliance Microbiome Network will increase opportunities for researchers from industry and academia to meet and collaborate

The Medicon Valley Alliance Executive Club is an exclusive network of executives representing life science and investor companies, science parks, higher learning institutions and regional councils
