

### **Clement Blanchet**

Clement Blanchet is the principal scientist for the BioSAXS beamline of P12 at EMBL Hamburg.

Trained in physics in physics and engineering, and after a Ph.D. in biophysics from the University of Grenoble, Clement Blanchet joined the SAXS Group of EMBL Hamburg in 2008. Since then, he has continuously developed the SAXS beamline to improve its performance and expand its experimental possibilities (Bio-WAXS, Bio-ASAXS, TR-SAXS). He is involved in numerous scientific collaborations for the collection, analysis, and interpretation of SAXS data.
